WORK EXPERIENCE

Web Developer

SYION Private Limited
March 2022 - present

Front-end developer with experience delivering web solutions for international automotive and motorcycle brands — including **Hyundai, Jeep, Triumph Motorcycles, and Energica**. I design and develop, from mockups to implementation.
My work has included **improving load times** through **Core Web Vitals** optimization, building **technical documentation**, and leading web projects end-to-end for a Singapore-based dealership company.
I like clean interfaces, organized code, and solving and preventing problems that sit between design and development.
